Ravens are known to have a unique relationship with wolves. These birds have been observed to play tug-of-war with wolf puppies, fly over them with sticks to tease them and even boldly pull their tails to incite a reaction. Some scientists also believe that ravens are capable of forming special bonds with individual wolves within a pack.

I know for a fact that the @USNavy was involved in helping to make @TopGunMovie - I have the #FOIA docs. I'm wondering why the military advisor and the wardrobe department are out of sync. These ribbons are out of order and make no sense for the characters. Ribbons tell a story.

~ Note to Self ~

"What is my purpose in life?" I asked the void.

"What if I told you that you fulfilled it when you took an extra hour to talk to that kid about his life?" said the voice.

"Or when you paid for that young couple in the restaurant? Or when you saved that dog in traffic? Or when you tied your father's shoes for him?"

"Your problem is that you equate your purpose with goal-based achievement. The Universe isn't interested in your achievements... just your heart. When you choose to act out of kindness, compassion and love, you are already aligned with your true purpose.

No need to look any further!"
